EH-161 & EW-161 — Industry Firsts!

- **The EH (Extended Height)** strike has an increased height latch bolt hole to allow for fluctuations in latch/strike locations.
- The centered hole gives an extra 1/4" to the top and bottom of the latch cut out (+1/2" total)
- 4 7/8" x 1 1/4"

- **The EW (Extended Width)** strike has an increased width latch bolt hole to allow for bowed doors or binding in latch/strike locations.
- The centered hole gives an extra 3/16" width, away from the stop, to overcome bowed or binding doors.
- 4 7/8" x 1 1/4"

EH-161 & EW-161 Finishes
